General Comment

DO NOT INTERFERE WITH US.
LIMIT GOVERNMENT CONTROL.

Constitutional Authority

I vehemently OPPOSE the federal government's involvement in the retirement planning of individual citizens and I believe such actions exceed the limited powers delegated by the several state and the people to the federal government via the US Constitution. We want you to leave us the hell alone!

Compassion and Charity

It is not the federal, state, or local government's role to provide for the every need of each person - citizen or not - within the United States. Morality, compassion and charity must come from individual character rather than government mandate - and you really can not effectively legislate those qualities. Our nation was founded on the power of personal responsibility, free choices to act or not, and the resulting consequences. People need to be ambitious enough to provide for themselves without government interference. People will take care of each other without the government being involved. Socialism, communism, or fascism have no place in the USA.

Nest Eggs

Those of us that have been industrious enough to create wealth and save for our retirement or other needs do not deserve to be penalized for others who have not done so. Government interference with our nest eggs is tyranny and will not be tolerated. Leave us and our wealth alone!

Government

Government has consistently proven that it is incapable of being as efficient as free market participants. Even worse, government decision making is subject to corruption by prevailing unbalanced political influences. The huge unfunded liabilities (empty promises of about \$107 TRILLION in 2009 dollars) of Medicare and Social Security are more than enough evidence to forbid government meddling with the lives of We The People. Leave us the hell alone!
